ABSTRACT GUIDELINES FOR E-POSTERS

ORIGINAL RESEARCH

Please submit your Abstract (structured summary of study) as per the following template Maximum **250 words** excluding Title, Authors, Affiliation. E-mail, Mobile number and References

TITLE:

- Complete title
- Title should not be written in inverted commas or capitals except for the first character of the title and the character beginning after a colon

e.g., “Comparison of dexmedetomidine, haloperidol, and propofol sedation on intra-abdominal pressure, inflammatory response, and clinical outcomes in patients with abdominal sepsis: A randomised controlled study”

- Authors: Full name: Author 1, Author 2...
- Affiliation: Department and Institute/Hospital, City, State, Country
- Email of corresponding author:
- Mobile of corresponding author:

Abstract:

Background and aims (mention what is known and what is intended to be assessed in the present study; specify the aim and objective clearly here)

Methods (include Ethical Committee approval, trial registration, patient consent, settings and design, interventions, and statistical analysis used)

Results: Mention P values, SD with Mean, IQR with Median along with 95% confidence interval

Conclusion: (Based on Primary Objective)

References: Include up to 2 relevant latest references

Keywords: Provide 3 to 5 appropriate MeSH keywords

Tables/Figures:

- A maximum of two tables/figures can be submitted.
- Provide legend to the tables and figures.

General Instructions:

- Please follow UK English and should be used uniformly throughout the text [e.g., anaesthesia (NOT anesthesia), haemoglobin (NOT hemoglobin), programme (NOT program), haemodynamics (NOT hemodynamics), etc.]
- Abbreviations should be spelt out with abbreviation in bracket adjacent to the expanded form in the first time it is cited in the abstract.
- Please do a plagiarism check before submission
- The paper related to the abstract should not have been presented before in any conference (of any state/national/ any other organisation)
- The authors should not use generative Artificial intelligence (AI) tools in the preparation of this submission. AI-assisted tools can be used only for language editing and Grammar correction. The authors and their guides wherever applicable should give an undertaking regarding this during submission.

- The full paper should not be already published or submitted for publication.
- Systematic reviews and meta-analyses cannot be presented by the postgraduate students.
